2024-NPFO-00940	(b) (6)	9/25/2024	<p>I would like to receive information from myself as November 2023 to March 2024 while residing at (b) (6) I was monitored by people who as they called themselves "undercover police" 24 hours a day, and wherever they were always there, I went to the local police to talk about what was happening but they could not help me, I received days after the report I made, a message to my phone asking me to report to the police department since I could not return to my house that I was renting at that time, but I was received by two people who in their words were not policemen, "they are agents" according to their business card, They helped me to take me to a hospital since I was scared because I did not know why police always accompanied me without having any crime or being under investigation (I myself asked the police) they also supported me with the processing of an insurance for not having it. In general, that was the situation, but in between there were different related events.</p> <p>1- Because the local police couldn't help me but agents could (I didn't contact any federal agency for help at the time)</p> <p>2- The message I received. I mentioned that I could not return home, because I had not paid a month's rent so the agents did know my situation perfectly but they did not give me an answer about it. Why would an agent know my situation and help me what is apparently something common, without complaint, without crime and practically without relevant importance.</p> <p>5- I have insurance but I don't know how it was possible, I didn't pay a single dollar and I only have a tourist visa.</p> <p>He clarified that I was never in real danger, they did not mess with me or prevent me from doing any activity, they were just there. They did not get into my body or I went through some unfair situation on their part.</p> <p>I would be very grateful if you could help me tell me if you are aware of this situation and could help me find out why it happened</p>
